

PRO-CLIP 20mm PIPES medium flex

DATA SHEET

Product description

New and innovative product from Denmark. Fast, easy and effective mounting of pipes or tubes into walls, without use of any tools. PRO-clip is designed with great attention to simplicity and functionality. Simply attach pipes or tubes to the clip, and push it into the channel in the wall, for great fixation.

Once inserted, and if needed, the clip can easily be removed from the channel, only to be used again.

The clip holds 20mm pipes or tubes, and two pipes or tubes can easily be mounted at the same time, if needed.

Users of this product will experience huge worktime reduction, better working position and easy control of the fixation proceeding. Medium flex is recommended to electricians.

Item technical data:

Item no:	2001
Ean no:	5700002035066
Item term:	P20/D19
Color:	Grey
Prepacking:	50 pcs.
Width:	14mm.
Height:	45mm.
Depth:	30mm.
Diameter:	19mm.
Fits Pipe size	20mm./0,787 inches
Halogen free	yes
PVC free	yes
RoHS/Reach	yes
Product link	www.clipsgroup.com
EP Patent No.	EP3093541B1

Recommended setting of channel cutter:

For best use, please use channel cutter with recommended settings.

Width:	25 millimetres
Depth:	35 millimetres
